ATTN: Dr. Richard Foulkes

Dear Dr. Foulkes:

During my visit at Future Vision, I really enjoyed and appreciated the fact that I was treated individually and not as a number added to the sales conquest.

Everyone there was genuine, personable and knowledgeable about the whole procedure. Knowledge like that, helped me come to my conclusion about going through with the Laser procedure.

The operation was a success! I'm very pleased with the outcome and my heart is filled with joy. If there's anything you need as far as expressing my satisfaction, please don't hesitate to contact my office. As I'm very pleased with the "clear" results.

Once again, Thank You for your professional and your great expertise work....Good Job!

Best Regards,

Bernie Mac
